**1. Service Description.**

Ethernet Internet Access is a data service comprised of a User Network Interface (UNI) and an Ethernet Virtual Connection (EVC) to the Internet which provides traffic separation, privacy, and security.

Managed Router Service Description. Frontier will configure the Router based on documented customer requirements. Customer shall permit Frontier to access the Router's Simple Network Management Protocol (SNMP) variables, and Customer shall, at Frontier's request, permit one or more Frontier network management systems to be the recipient of SNMP

trap messages. Frontier will perform monitoring based on standard SNMP traps received from the Router. Frontier will work to isolate and determine the source and severity of the problems. If a problem is caused by either the network transport or the Router, Frontier and Customer will cooperate to restore the Router to operational condition. If the source of the problem is within the Router, Frontier will be responsible for the repair or replacement of the Router, in Frontier’s sole discretion. If the source of the problem is not the Router, at Customer’s request Frontier will cooperate with Customer to conduct testing and repair activities, subject to Frontier’s standard technician rates. Frontier has no responsibility with respect to: (i) electrical work external to the Router, including but not limited to power or back-up power to or from the Router; (ii) Router failures caused by factors not related to the Router or outside Frontier’s control, including but not limited to failure of the Service Location or any of Customer’s other network equipment or facilities to conform with Frontier’s specifications; (iii) use of the Router for any purpose other than as intended by the manufacturer; (iv) damage caused by anyone other than an Frontier employee or representative; (v) Router supplies, accessories, painting, or refurbishing; and (vi) any activity related to anything not furnished by Frontier, or use of Router which fails to conform to manufacturer or Frontier specifications.

**2. Special Construction: All Services are subject to availability and Frontier Network limitations.** The rates identified in this Schedule are estimated based on standard installation costs and Services may not be available at all service locations at the rates identified. If Frontier determines, in its reasonable discretion, that the costs of provisioning Service to any service location are materially higher than normal, Frontier will notify Customer of the additional costs associated with provision of the Services and request Customer’s acceptance of such costs as a condition to proceeding

(“Special Construction”). Upon notification that Special Construction is required, Customer will have ten (10) business days to notify Frontier of its acceptance. If the Customer does not agree to the Special Construction within ten (10) business days, the Customer shall be deemed to have cancelled the Service Schedule without further liability. If the Customer agrees to the Special Construction, Frontier and Customer will execute a replacement Schedule.

**3. Obligations of Customer.** Customer is responsible to ensure appropriate processes and protocols are in place for rate shaping to the amount of throughput ordered. Customer acknowledges that failure to comply with this responsibility may negatively impact Service performance.

**4. Internet Acceptable Use Policy and Security.** Customer shall comply, and shall cause all Service users to comply, with Frontier’s Acceptable Use Policy (“AUP”), which Frontier may modify at any time. The current AUP is available for review at the following address, subject to change: [http://www.frontier.com/policies/commercial\\_aup/](http://www.frontier.com/policies/commercial_aup/). Customer is responsible for maintaining awareness of the current AUP and adhering to the AUP as it may be amended from time to time. Failure to comply with the AUP is grounds for immediate suspension or termination of Frontier Internet Service, notwithstanding any notice requirement provisions of the FSA. Customer is responsible for the security of its own networks, equipment, hardware, software and software applications. Abuse that occurs as a result of Customer’s systems or account being compromised or as a result of activities of third parties permitted by Customer may result in suspension of Customer’s accounts or Internet access by Frontier. Customer will defend and indemnify Frontier and its affiliates with respect to claims arising from Customer’s or third parties’ usage of Frontier Internet access through Customer’s hardware or software.

\*This Schedule S-0000144690 supersedes the previous Metro Ethernet LAN/WAN Schedule No.1 dated February 25, 2013 between Frontier and Palo Verde USD. There will be no Early Termination Charges (ETF’s) imposed as a result of terminating the previous Schedule and implementing this current Schedule.

This Schedule is not effective and pricing, dates and terms are subject to change until signed by both parties, and may not be effective until approved by the FCC and/or applicable State Commission. This Schedule and any of the provisions hereof may not be modified in any manner except by mutual written agreement. The above rates do not include any taxes, fees or surcharges applicable to the Service. This Schedule, and all terms and conditions of the FSA, is the entire agreement between the parties with respect to the Services described herein, and supersedes any and all prior or contemporaneous agreements, representations, statements, negotiations, and undertakings written or oral with respect to the subject matter hereof.
